

I want to eat sushi

I want to eat sushi with other people's money.

Sushi ingredients

- Tuna
- Squid
- Salmon

Sushi mold: `jp.sushint32` or `jp.sushint8`.

Sushi code

The simplest sushi code (pseudo code)

```
import sushi
for i in range(10):
    sushi.random_take()
```

-> Sushi comes out.

Sushi Formula

The sushi formula was discovered by Su Shi [168-192].

$$S = U^\sigma \frac{H}{I}$$
